

Antipollution of water installations

Technical document 045-02

Air gaps – Family A

Technical document 045-02 rev. 16
25/07/2022

The CSTB (Centre Scientifique et Technique du Bâtiment), a public establishment supporting innovation in construction, has four key activities: research, expertise and the assessment and dissemination of knowledge, organised to meet the challenges of ecological and energy transition in the construction sector. Its field of competence covers construction materials, buildings and their integration into districts and towns.

With over 900 employees, its subsidiaries and networks of national, European and international partners, the CSTB group works for all the stakeholders in the construction sector to push forward the quality and safety of buildings.

All reproduction or representation, complete or partial, by whatever means, of the pages published in this technical document and executed without the authorisation of the CSTB is illegal and constitutes a counterfeit. The only authorised exceptions are reproductions strictly reserved for the use of the typist and not for the purpose of any collective use; or analyses and short quotations required due to the scientific or information nature of the work in which they figure (article L.122-5 of the Intellectual Property Code). This document has been drawn up under the initiative and direction of the CSTB, which has brought together the opinions of all interested parties.
