## Part 1

# Obtaining certification

### 1.1 Lodging an initial admission application

#### 1.1.1 SUBMISSION OF THE APPLICATION DOSSIER

The application shall be submitted in compliance with the conditions and templates provided in Part 3 (paragraph 3.1).

If the product comes from a manufacturing plant located outside the European Economic Area, the applicant shall designate a representative within the EEA as a joint signatory to the application.

The functions delegated to the representative are defined in a mandate (example file in Part 3), signed by both the applicant and the representative.

When the application is received, the following procedure is initiated:

- an administrative and technical review of the request is performed;
- the assessment (audits and tests) is carried out;
- the assessment is reviewed;
- the decision is taken.

#### 1.1.2 ADMINISTRATIVE AND TECHNICAL REVIEW OF THE APPLICATION

When the application dossier is received, CSTB verifies that:

- all documents requested in the application dossier are included;
- elements contained in the technical file respect the requirements in the certification reference system.

The application is only admissible if:

- the application letter is complete, signed and accompanied by the signed quote where applicable;
- the applicant manages and assumes responsibility for the following stages: design, production, assembly, quality control, marking, packaging and marketing, and specifies the critical points of the various steps;
- any aspect not carried out by the applicant shall be covered by a contract defining the respective responsibilities with the service provider. The applicant shall remain responsible for all operations and for ensuring they are consistent;
- the products covered by the application comply with the reference standards and technical specifications laid out in part 2 of this certification reference system;
- the inspections and tests for the products covered by the application and specified in this certification reference system and technical documents 017-01 to 017-21 are implemented;

## **Administrative management appendix to the NF certification system**

### **Sanitary Appliances**

#### **Revision No.: 27**

---

- all requested documents are enclosed with the application, in particular the contractual documents between the applicant/representative and the applicant/distributor, if applicable.

CSTB also ensures that it has all the resources needed to reply to the application, and it may request additional information needed to ensure the admissibility of the dossier if it is incomplete.

Once the application is admissible, CSTB plans for the assessment and informs the applicant of the organisational procedures (auditor, audit duration, sites to be audited, laboratories, products to be sampled, etc.).

#### **1.1.3 ASSESSMENT METHODS**

The inspections performed in the context of NF marking are generally of two types:

- audits carried out at the production site;
- tests on the products.

They may be supplemented with further evaluations, e.g. an analysis of inspection records following the audit, an assessment of the capabilities of the holder's technical support, etc.

A report is drafted following these evaluations: audit report, test report, etc.

Should a requirement in this reference system not be met, then the reports are to be accompanied by deviation sheets if necessary, including a request to be submitted within a prescribed time span for a proposed corrective action by the applicant.

The reports may mention weak points. Those points indicate departures from the optimal product/service performance. They do not require any corrective actions. However, they are analysed as part of the next evaluation, and may be reclassified as deviations in the event of departures leading to non-respect of the requirements laid out in this reference system.

#### **1.1.4 ASSESSMENT REVIEW AND DECISION**

CSTB assesses the test and audit reports that are prepared and sent to the applicant (assessment review).

In certain cases, a complementary inspection may be requested by CSTB, based on its analysis of the reports.

For each irregularity, the applicant shall describe the actions implemented or planned, along with a schedule for their application that is consistent with the deviation observed. The persons responsible for the actions to be implemented must also be specified here.

CSTB analyses the relevance of the reply and may ask for an additional inspection to be carried out in order to verify that corrective actions have been taken (partial or complete audit and/or testing/document verification).

CSTB may present an anonymous summary of all assessment results to the Specific Committee for its opinion.

Depending on the results of the entire assessment, CSTB will take one of the following decisions:

- certification agreement with or without comments;
- certification refusal, giving reasons for the refusal.

## **Administrative management appendix to the NF certification system**

### **Sanitary Appliances**

**Revision No.: 27**

---

In the case of a positive certification decision, AFNOR Certification shall grant the right to use the NF mark and CSTB shall remit the NF certificate, which is valid for 15 months, to the applicant, which will thereby become the holder of the right to use the NF mark.

Applicants can contest the decision taken by sending a request in accordance with the General Rules of the NF mark. They are entitled to present their case formally.

Granting the right of use in no way substitutes CSTB's responsibility for the legal responsibility of the company that holds the right to use the NF mark.

The holder can then communicate about their certification using the methods defined in Part 2 of the certification reference system.

### **1.2 Complementary admission application**

The steps described in paragraph 1.1 above apply. The application shall be submitted in compliance with the conditions and templates provided in Part 3 (paragraph 3.2).

### **1.3 Extension application**

The steps described in paragraph 1.1 above apply. The application shall be submitted in compliance with the conditions and templates provided in Part 3 (paragraph 3.3).

### **1.4 Maintenance application**

The application shall be submitted in compliance with the conditions and templates provided in Part 3 (paragraph 3.4).

In the context of distribution under other trademarks, certain modifications may be made to the presentation of the affected products that have no functional effect. In this case, the holder shall specify in the maintenance application the list of modifications made to the products in question.

CSTB then makes sure that these modifications have no functional effect.

The Specific Committee is notified when CSTB issues decisions to maintain the right of use.

The company that distributes the certified products must provide CSTB with all the sales documents (catalogues, brochures, websites, etc.) that refer to these products and send updated documents for each new version.

CSTB may carry out controls at the retail site (merchants, DIY superstores, etc.) for products that are the subject of a maintenance application.

## Part 2

# Maintaining certification: terms and conditions for follow-up

Throughout the certification period, the holder shall:

- comply with the requirements and marking procedures described in Part 2 of the certification reference system;
- update their certification file using the templates supplied in Part 3 of this Appendix;
- always inform CSTB of any modification to one of the characteristics of the certified product and/or of its organisation that is likely to have an impact on the certification.

In addition, CSTB reserves the right to carry out any controls (visits, tests, verifications, etc.) it deems necessary as a result of:

- a modification affecting the certified product or the quality organisation of manufacturing entities (production factory, production workshops, sub-contractors' factory, etc.);
- complaints, disputes, legal actions, etc. of which it becomes aware that relate to the use of the NF mark;
- inspections (including sampling) may be made at retail outlets.

In case of disputes with users, the inspections may include samplings or tests on the usage sites (in this case, the holder is invited to be represented in order to observe the operations).

### 2.1 Conditions for follow-up inspection

Monitoring of certified products includes follow-up audits of the production unit and tests on the products.

It also involves monitoring of the use of the mark and the logos on the products, packaging and any communication materials.

The reports are accompanied by deviation sheets if necessary, including a request for a proposed corrective action by the holder within a prescribed time span.

The follow-up conditions (for audits and tests) depend upon the following:

- whether or not the holder holds the ISO 9001 certification, in compliance with Part 2 of this certification reference system;
- decisions made as a result of previous inspections (audits and tests);
- any applicable simplifications.

Before initiating the follow-up process, CSTB completes an administrative and technical review of the certification dossier to ensure that no modifications affecting certification need to be taken into account.

## **2.2 Assessment review and decision**

CSTB assesses the test and audit reports that are prepared and sent to the holder (assessment review).

In certain cases, a complementary inspection may be requested by CSTB, based on its analysis of the reports.

For each irregularity, the holder shall describe the actions implemented or planned, along with a schedule for their application that is consistent with the deviation observed. The persons responsible for the actions to be implemented must also be specified here.

CSTB analyses the relevance of the reply and can request the implementation of an additional inspection.

CSTB anonymously submits all of the assessment results to the Specific Committee for its opinion.

Depending on the results of all the inspections, CSTB comes to a conclusion about the assessment and notifies the holder of the conclusion, which may be:

- decision to renew the certificate; or
- decision to sanction in accordance with the General Rules of the NF mark.

In the event of a sanction, the sanction shall apply as from the date of its declaration. The choice of sanction depends on the severity of the observed deviation. Sanction notifications that affect the right of use are signed by CSTB Management.

The cost of additional inspections due to the sanctions or after analysis of reports is to be borne by the holder.

The holders and their distributors that benefit from a maintenance of the right of use are each responsible for the right to use the NF mark, in relation to the product under consideration, and undertake to apply the measures resulting from the sanctions, decided upon in conformity with the certification reference system.

Any suspension or withdrawal of the right to use the NF mark results in the prohibition to use the NF mark and to make reference to it. This obligation is valid not only for the holder but also for the whole sales network of their company, as well as for the dealers responsible for distributing the company's products.

All documentation (technical and sales documents, labels, notices, advertising, websites, etc.) shall no longer mention the NF mark for the product that is subject to a suspension or a withdrawal (erratum and/or reprinting required).

Holders can contest the decision taken by submitting a request in accordance with the General Rules of the NF mark. They are entitled to present their case formally.

## Part 3

### Certification files

The application for the right to use the mark must be prepared by the applicant/holder in one copy in accordance with the examples and templates set out below. **One original of this request shall be prepared on the applicant's letterhead paper in French** and the entire application shall be sent to CSTB.

In the event that the product comes from a manufacturing unit located outside the European Economic Area, the applicant shall designate a representative within the European Economic Area who co-signs the application.

For the processing of an application for a product which benefits from a foreign conformity mark or from a test certificate issued by a foreign laboratory, existing recognition agreements shall be taken into account, in accordance with the General Rules of the NF mark.

Note: Electronic versions of template letters and sheets may be obtained from CSTB.

#### 3.1 For an initial admission application

The applicant shall prepare a dossier which includes:

- an application and commitment letter from the applicant based on standard letter 1A or 1B (if outside the EEA);
- a general information sheet about the applicant, using standard sheet 3A;
- one data sheet per product using standard sheet 4;
- a copy of a contract drawn up between the applicant and their representative if the manufacturing unit is outside the EEA, using standard sheet 1C.

#### 3.2 For a complementary admission application

The holder shall prepare a file containing the following:

- an application and commitment letter from the holder based on standard letter 1A or 1B (if outside the EEA);
- a general information sheet about the applicant, using standard sheet 3A;
- one data sheet per product using standard sheet 4.

#### 3.3 For an extension application

The holder shall prepare a file containing the following:

- an application and commitment letter from the holder using standard letter 2A;
- one data sheet per product using standard sheet 4.

### **3.4 For a maintenance application**

The holder shall prepare a file containing the following:

- an application and commitment letter from the holder using standard letter 2B;
- a distributor’s commitment sheet (signature) on their Company letterhead paper, in accordance with standard letter 2C;
- a general information sheet about the distributor, using standard sheet 3B.

### **3.5 For a new admission application following withdrawal of the right to use the NF mark**

The holder shall prepare a file containing the following:

- an application and commitment letter from the applicant based on standard letter 1A or 1B (if outside the EEA);
- a general information sheet about the applicant, using standard sheet 3A;
- one data sheet per product using standard sheet 4;
- specific items that all applicants must submit as part of a new admission application where the right of use has been withdrawn as a result of a sanction, using standard sheet 5.

Subject: **Application to maintain the right to use the NF - Sanitary Appliances mark**

Dear Sir, Madam,

I am writing to apply to maintain the right to use the NF mark on products that are no different from those already covered by the mark other than by their trademarks and/or their specific trade references affixed thereto and, where applicable, by design changes that do not alter their certified features in any way whatsoever.

Identification of the products admitted to the NF mark		Trademark and/or specific trade reference requested by the distributor
Certificate No.	Name and reference of the holder's product	

The company that will distribute these products (distributor) under the brand name <new brand name requested> has the following contact information:

Name: .....

Address: .....

I commit to providing the above-mentioned distributor with the certification reference system for the NF - Sanitary Appliances mark and, in particular, with the marking provisions laid down in §2.6 of this same certification reference system.

I undertake to immediately inform CSTB of any changes made to the distribution of those products, and in particular in the event of any discontinuation of supply by the above-mentioned distributor.

For that purpose, I declare that I am familiar with and accept the General Rules of the NF mark and the certification reference system of the NF Sanitary Appliances mark and I commit to conforming to them and to informing my commercial network throughout the duration of usage of the NF mark and, in particular, to complying with the decisions taken, with no restrictions or reservations, in accordance with the General Rules of the NF mark and with the certification reference system of the NF Sanitary Appliances mark.

I authorise CSTB to inform the above-mentioned distributor of any sanctions placed in accordance with the certification reference system of the NF – Sanitary Appliances mark, pertaining to the certified products hereby covered.

Please find attached a copy of the commitment sheet signed by the distributor, <name of Company>, to distribute under the brand name and/or the specific retail product name only those certified products that I have delivered to them.

Yours faithfully,

**Date and signature of the legal representative of the holder (maintenance applicant)**

**STANDARD LETTER 2C**

**NF MARK - Sanitary Appliances**

**DISTRIBUTOR'S COMMITMENT SHEET (SIGN)**

(to be drawn up on the distributor's letterhead)

I, the undersigned .....

acting in my capacity as: *(MD, Chairman, CEO, etc.)*

having its registered office at: .....

SIRET No.:.....

hereby agree:

- to make no technical changes, and in particular, any such changes affecting the nature and/or operational features of the certified products named below:

Identification of the products admitted to the NF mark		Trademark and/or specific trade reference requested by the distributor
Certificate No.	Name and reference of the holder's product	

- to make no alterations likely to modify the certified features of the products manufactured by the following company <holder>, such as <specify alterations>. Any subsequent alteration must be reported beforehand to CSTB for approval and the holder must also have agreed;
- not to change the above-mentioned trademarks and/or specific trade references, unless agreed with the holder of the right to use the NF mark and after having previously notified CSTB by registered letter with acknowledgement of receipt;
- to distribute under the above-mentioned <brand names> and/or the specific <retail product names> only those products delivered by <holder>;
- to not make any changes to the marking on the products in accordance with the provisions in the certification reference system of the NF - Sanitary Appliances mark;
- to provide my assistance to CSTB for any verifications pertaining to the products covered by the present letter and to their marketing, and to give CSTB any documentation referring to those products;
- to apply the measures resulting from sanctions imposed in accordance with the certification reference system of the NF - Sanitary Appliances mark;
- to pay the fees provided for in the NF mark price list and to effect all subsequent payments demanded from me in accordance with the certification reference system of the NF - Sanitary Appliances mark;
- to inform the holder of any complaint received with regard to the certified products.

I declare that I am familiar with and accept the General Rules of the NF mark and the certification reference system of the NF Sanitary Appliances mark and I commit to conforming to them and to informing my commercial network throughout the duration of usage of the NF mark and, in particular, to complying with the decisions taken, with no restrictions or reservations, in accordance with the General Rules of the NF mark and with the certification reference system of the NF Sanitary Appliances mark.

Complementary/supplementary checks	Services required by the additional checks (audit or complementary verification tests) which may turn out to be necessary following insufficiencies or anomalies detected by the routine verifications.	These services are to be borne by the applicant/holder according to the prices in force, provided upon request.
Promoting the NF mark	Sector promotion actions to promote the NF mark.	The fee for this service is determined each year and invoiced in addition to the other services.

## 4.2 Paying for the services

### 4.2.1 INITIAL APPLICATION / EXTENSION APPLICATION

The costs of participation in the implementation of the application, and costs relating to examination, audit and testing services are billed upon admission (granting of the right of use) An advance of up to 50% of these costs may be requested from the applicant with their certification application (initial or extension application). These fees remain payable even if the right to use the NF mark is not awarded, extended or if the application is abandoned during the examination.

## **Administrative management appendix to the NF certification system**

### **Sanitary Appliances**

#### **Revision No.: 27**

---

Whenever the NF mark is granted during the year, the amount of the usage fee is calculated on a pro rata basis, based on the number of months following the decision to grant the right of use.

#### **4.2.2 MONITORING**

The fees for annual services pertaining to management, audit, testing, possible sampling, and the right to use the NF mark will be invoiced during the first quarter of each year and remain payable if the right to use the NF mark is not renewed, is cancelled or is suspended during the year.

#### **4.2.3 NON-PAYMENT OF AMOUNTS DUE**

The applicant or holder of the right to use the NF mark must pay all their fees in accordance with the stipulated terms of payment. Any failure on their part constitutes an obstacle to the performance by CSTB of the responsibilities of verification and corrective action that are incumbent upon it under this certification reference system.

If an initial notification by registered letter with acknowledgement of receipt does not result, within one month, in the payment of all the sums due, all penalties provided for in the General Rules of the NF mark may be applied for all the products accepted for that holder.

### **4.3 Cancellation by the applicant/holder of an audit or a test**

For any audit cancelled by the applicant/holder less than 30 days prior to the date of the audit, CSTB may charge a lump sum by way of damages:

- 25% of the audit invoice if cancelled 1 month prior to the audit;
- 50% of the audit invoice if cancelled from 1 month to 15 days prior to the audit;
- 75% of the audit invoice if cancelled less than 15 days prior to the audit.

If the CSTB travel and accommodation expenses are not subject to a fixed rate, they will also be invoiced if those expenses cannot be fully refunded.

Applicants/holders do not have to pay this lump sum provided that they can demonstrate that the cancellation directly results from a case of *force majeure* as specified under French Law.

### **4.4 Prices**

Prices are reviewed annually, in the form of a price list drawn up by CSTB. This revision is communicated to the Specific Committee.

If holders refuse to recognise the annual price review, they will be deemed to have voluntarily terminated the certification contract and the right to use the NF mark for their certified products.
