

SANITARY TAPWARE
Technical document
077-01F

Complementary specifications applicable to
shower kits or sets

Technical Document 077-01F Rev01
02/04/2019

CSTB (Centre Scientifique et Technique du Bâtiment), a public establishment supporting innovation in construction, has four key activities—research, expertise, assessment and dissemination of knowledge—organised to meet the challenges of ecological and energy transition in the construction sector. Their fields of expertise include construction materials, buildings and their integration into districts and towns.

With over 900 employees, its subsidiaries and networks of national, European and international partners, the CSTB group works for all the stakeholders in the construction sector to advance building quality and safety.

Any reproduction or representation, in whole or in part, by whatever means, of the pages published in this technical document and executed without the authorisation of CSTB is illegal and constitutes a counterfeit. The only authorised exceptions are 1) reproductions strictly reserved for the use of the typist and not intended for any collective use or 2) analyses and short quotations required due to the scientific or informational nature of the work in which they appear (article L.122-5 of the Intellectual Property Code). This document has been drawn up under the initiative and direction of the CSTB, which has brought together the opinions of all interested parties.

MODIFICATION HISTORY

Revision no.	Date	Modifications
18	01/06/2017	Update to the document layout and reference Substantial modification: Chapter 8 added.
01	02/04/2019	Update to the document layout and reference. Technical Document No. 1 divided into 6 technical documents No. 01A to 01F

TABLE OF CONTENTS

1.	Shower kit or set	5
1.1	Purpose.....	5
1.2	Field of application	5
1.3	NF set composition rules	5
1.4	ECAU or EChAU set composition rules.....	7

1. SHOWER KIT OR SET

1.1 Purpose

The purpose of this document is to:

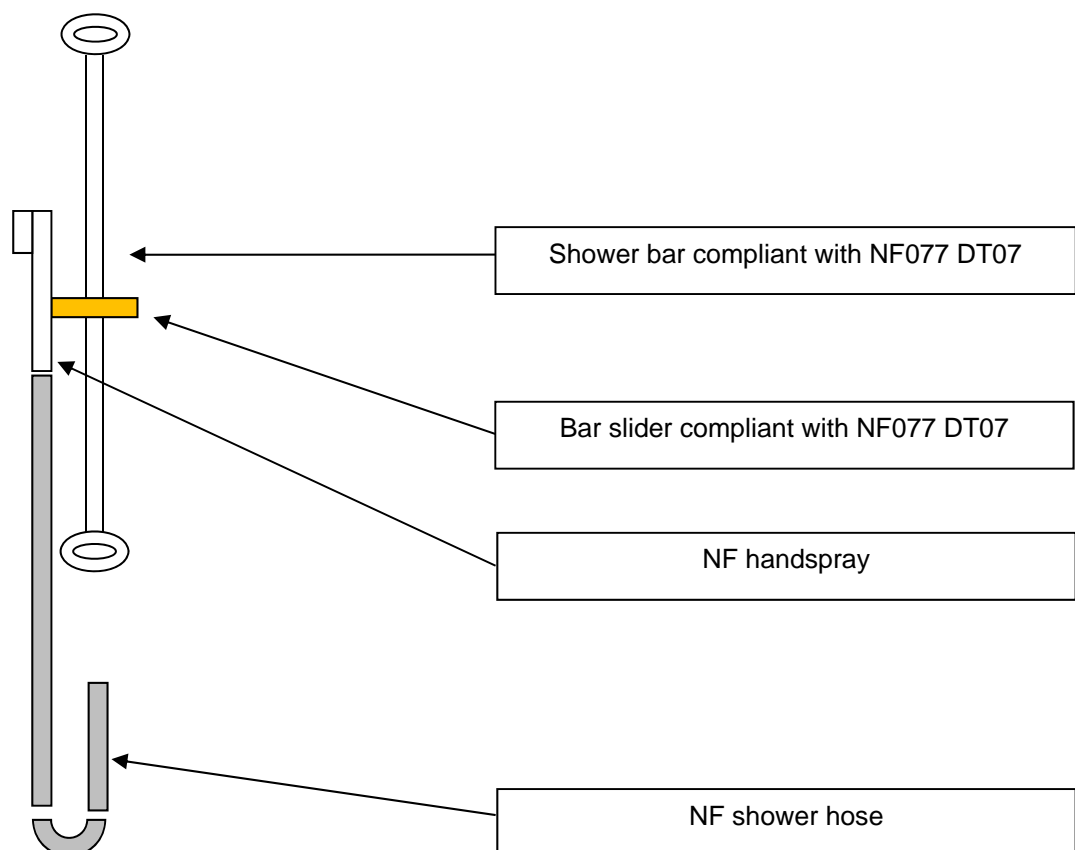

- define the field of application;
- establish the rules for the composition of a product referred to as “kit” or “set”;
- describe the tests used to monitor the technical characteristics of certain components not covered by shower accessory standards (these components must comply with paragraph 1 of this document for non-Nickel Chrome surfaces and with paragraph 2 of this document for Nickel-Chrome surfaces)

1.2 Field of application

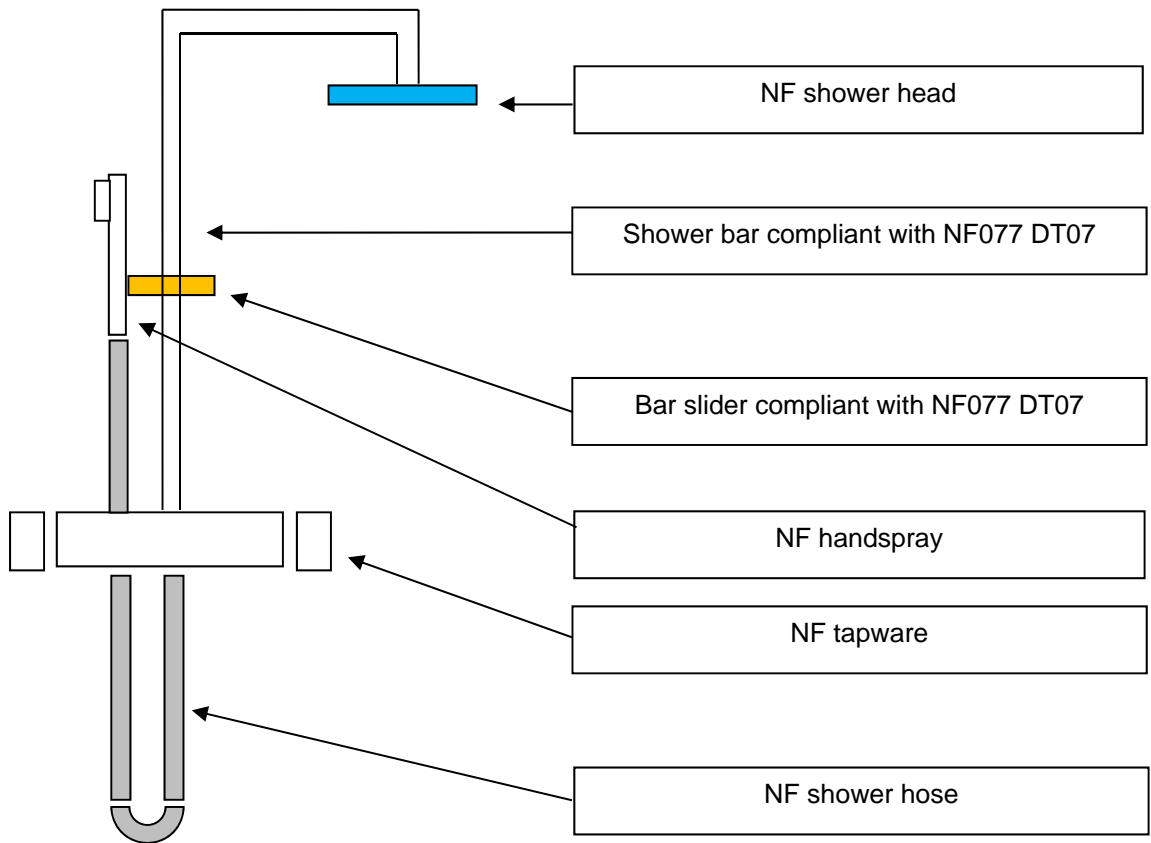

This document applies to all sanitary tapware.

1.3 NF set composition rules

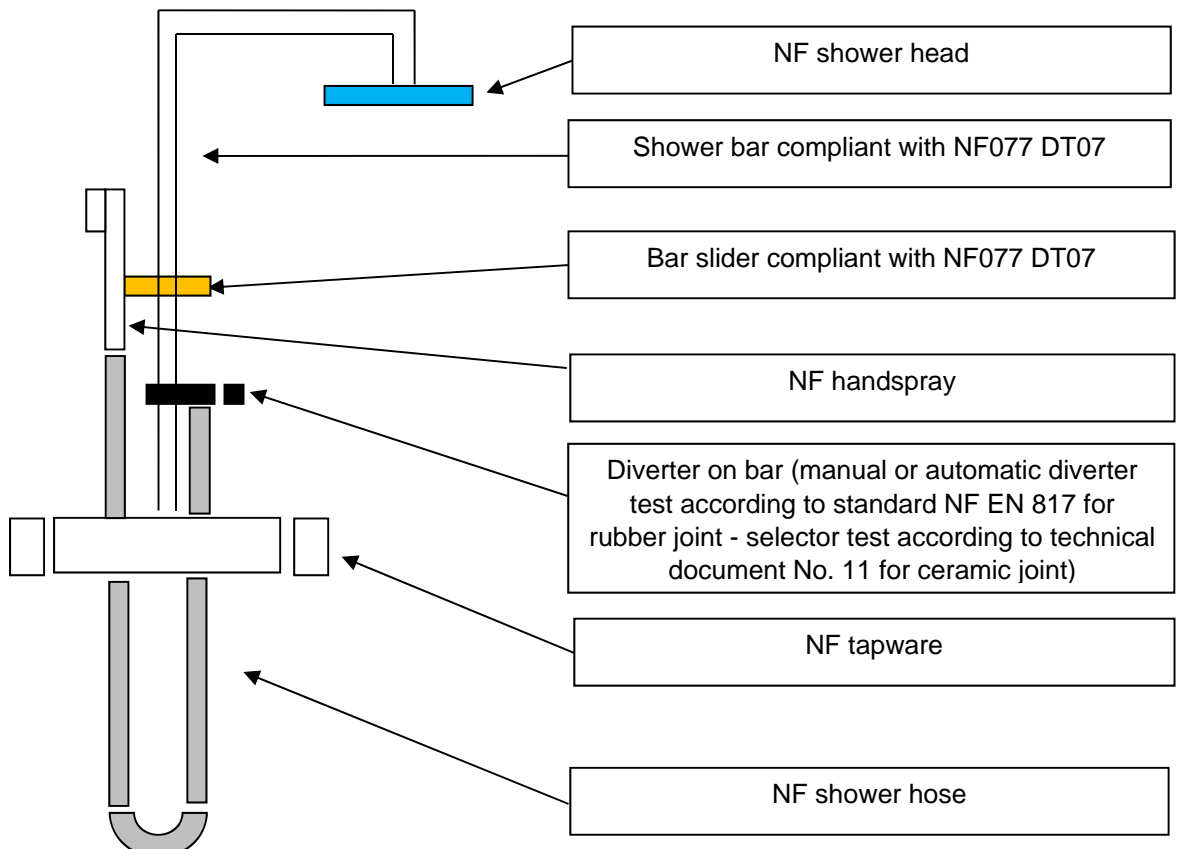

Example of “shower bar” kit No. 1

Example of set No. 2

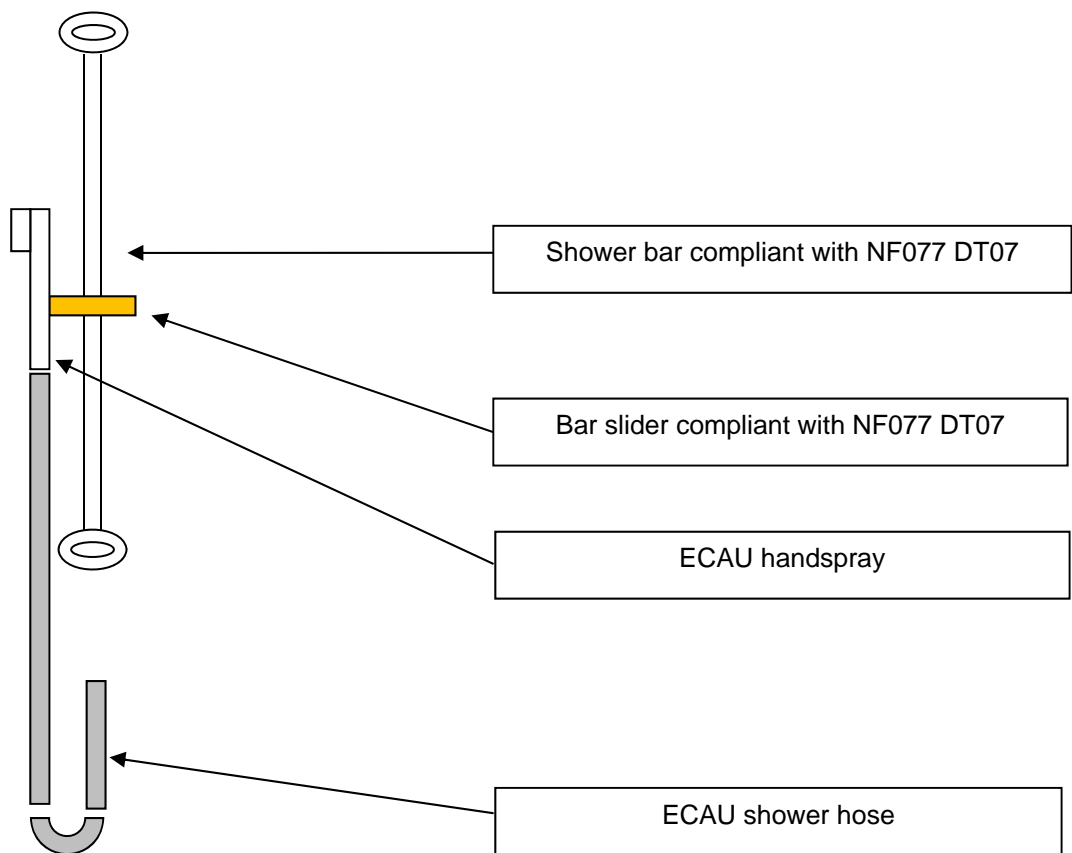

Example of set No. 3

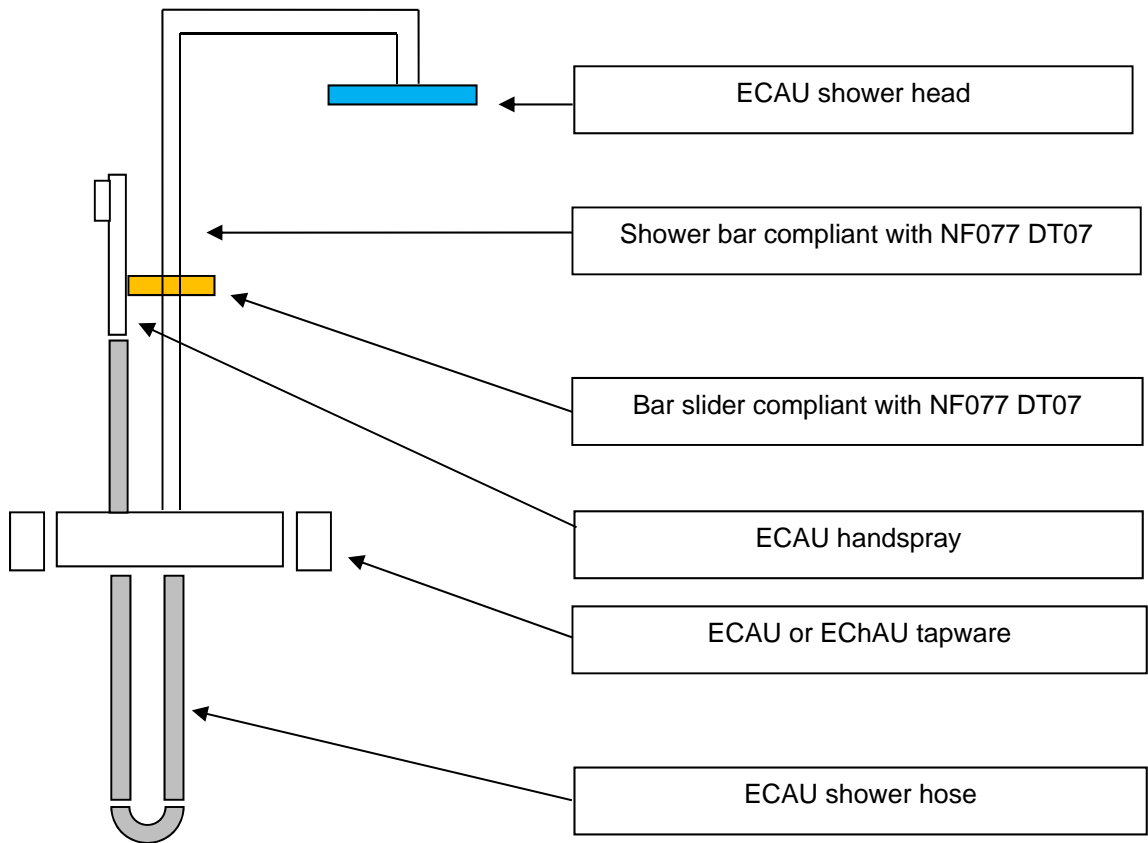

1.4 ECAU or EChAU set composition rules

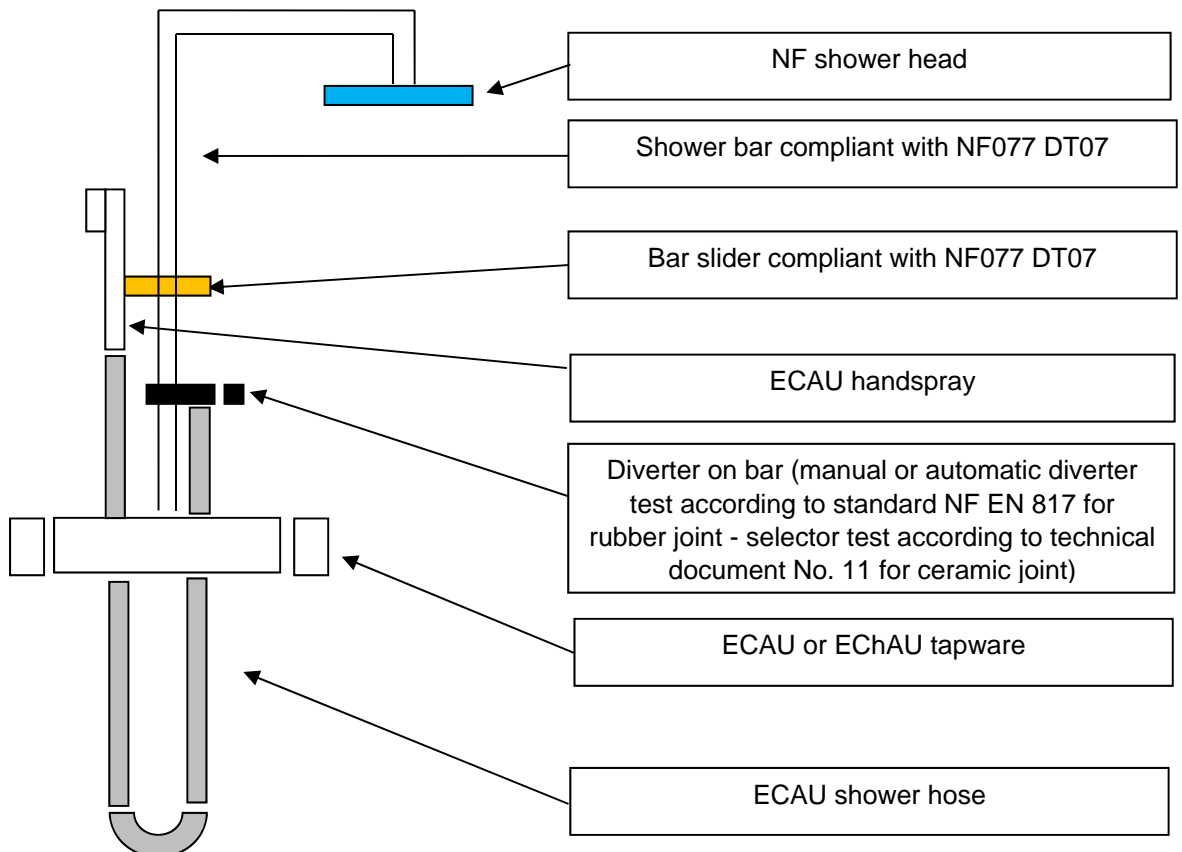

Example of “shower bar” kit No. 1

Example of set No. 2

Example of set No. 3

Example of “washbasin tap” kit No. 1
