Part 1

Obtaining Certification

1.1 Lodging an initial admission application

1.1.1 SUBMISSION OF THE APPLICATION DOSSIER

The application shall be submitted in compliance with the conditions and templates provided in Part 3 (paragraph 3.1).

If the product comes from a manufacturing plant located outside the European Economic Area, the applicant shall designate a representative within the EEA as a joint signatory to the application.

The admission fee and the annual certification fees will be addressed to the representative, who undertakes to pay the corresponding invoices.

When the application is received, the following procedure is initiated:

- an administrative and technical review of the request is undertaken;
- the assessment (audits and tests) is carried out;
- the assessment is reviewed;
- the decision is taken.

1.1.2 ADMINISTRATIVE AND TECHNICAL REVIEW OF THE APPLICATION

When the application dossier is received, CSTB verifies that:

- all documents requested in the application dossier are included;
- elements contained in the technical file respect the requirements in the certification reference system.

The request is only admissible if:

- the application letter is complete, signed and accompanied by the signed quote where applicable;
- the applicant manages and assumes responsibility for the following stages: design, production, assembly, quality control, marking, packaging and marketing and specifies the critical points of the various steps;
- any aspect not carried out by the applicant shall be covered by a contract defining the respective responsibilities with the service provider. The applicant shall remain responsible for all the operations and for ensuring they are consistent;
- the products covered by the application comply with the reference standards and technical specifications set out in Part 2 of this certification reference system;
- the inspections and tests for the products covered by the application and specified in this certification reference system and technical document 081-1 are implemented;
- all requested documents are enclosed with the application, in particular, the contractual documents between the applicant/representative and the applicant/distributor, if applicable.

NF certification system administrative management appendix
Gypsum plasterboard
Revision No.: 7

CSTB also makes sure that it has all the ways and means to reply to the application and it may be led to request additional information necessary for the admissibility of the dossier if it is incomplete.

Once the application is admissible, CSTB plans for the assessment and informs the applicant of the organisational procedures (auditor, audit duration, sites to be audited, laboratories, products to be sampled, etc.).

1.1.3 EVALUATION METHODS

The verifications performed within the framework of the NF mark are generally of two types:

- audits carried out at the production site;
- tests on the products.

They may be supplemented with further evaluations, for instance, the analysis of the control registers following the audit, etc.

The assessments give rise to a report.

Should a requirement of the reference system not be met, then the reports are to be accompanied, as the case may be, by deviation sheets, including a request for a corrective action proposal by the applicant within a prescribed time span.

The reports may mention weak points. Those points indicate departures from the product/service performance. They do not require any corrective actions. However, they are to be analysed within the framework of the next evaluation and may be converted into deviations in the event of departures leading to non-respect of the reference system's requirements.

1.1.4 EVALUATION REVIEW AND DECISION

CSTB assesses the test and audit reports that are prepared and sent to the applicant (evaluation review).

In certain cases, a complementary inspection operation may be requested by CSTB, based on its analysis of the reports.

For each irregularity, the applicant shall describe the actions implemented or planned with the time span for their application consistent with the deviation observed. The persons responsible for the actions to be implemented shall be mentioned too.

CSTB analyses the relevance of the reply and may ask for an additional test to be carried out to check that corrective actions have been set up (partial or complete audit and/or testing/document verification).

CSTB may present an anonymous summary of all evaluation results to the Specific Committee for its opinion.

Depending on the results of the entire assessment, CSTB will take one of the following decisions:

- certification agreement with or without comments;
- certification refusal, giving reasons for the refusal.

In case of a positive certification decision, AFNOR Certification shall grant the right to use the NF mark and CSTB shall remit the NF certificate to the applicant which, on that occasion, will become the holder of the right to use the NF mark.

The certificates include a validity date.

The applicant can contest the decision taken by sending a request in conformity with the General Rules of the NF mark. They are entitled to present their case formally.

Granting the right of use in no way substitutes CSTB's responsibility for the legal responsibility of the company that holds the NF mark usage right.

The holder can then provide information about their certification using the methods defined in Part 2 of the certification reference system.

1.2 Complementary admission application

The steps described in paragraph 1.1 above apply.

The application shall be submitted in compliance with the conditions and templates provided in Part 3 (paragraph 3.2).

1.3 Extension application

Application by which a holder requests the extension of their right to use the NF mark for a certified product whose characteristics have been modified.

The steps described in paragraph 1.1 above apply.

The application shall be submitted in compliance with the conditions and templates provided in Part 3 (paragraph 3.3).

1.4 Maintenance application

Application by which a holder requests the maintenance of their right to use the NF mark for a product intended to be marketed under a different brand and/or trade reference, but without modifying the certified characteristics. The product can be marketed by another distributor.

The application shall be submitted in compliance with the conditions and templates provided in Part 3 (paragraph 3.4).

For distribution under other trademarks, it is acceptable to make certain presentation modifications to the relevant products that have no functional effect. In this case, the holder shall specify in the maintenance application the list of modifications made to the products in question.

CSTB then makes sure that these modifications have no functional effect.

The Specific Committee is notified when CSTB issues decisions to maintain the right of use.

The company that distributes the certified products must provide CSTB with all the sales documents (catalogues, brochures, websites, etc.) that refer to these products and send updated documents as appropriate.

CSTB may carry out inspections at the retail site (merchants, DIY superstores, etc.) for products that are the subject of a maintenance application.

Part 2

Maintaining Certification: Terms and Conditions for Follow-Up

Throughout the certification period, the holder shall:

- comply with the requirements and marking procedures described in Part 2 of the certification reference system;
- update their certification file using the models supplied in Part 3 of this Appendix;
- systematically inform CSTB of any modification to one of the characteristics of the certified product and/or of its organisation that is likely to have an impact on the certification.

In addition, CSTB reserves the right to carry out any controls (visits, tests, verifications, etc.) it deems necessary as a result of:

- a modification affecting the certified product or the quality organisation of the manufacturing entities (manufacturing plant, production workshops, subcontractors' plants, etc.);
- complaints, disputes, legal actions, etc. of which it becomes aware related to the use of the NF mark;
- checks (including sampling) may be made in trade outlets.

In case of disputes with users, the verifications may include sample-taking or testing on the utilisation premises (in that case, the holder is invited to be represented so as to witness the operations).

2.1 Conditions for follow-up inspection

The monitoring of the certified products includes follow-up audits of the production unit and tests on the products.

It also involves surveillance of the usage of the mark and the logos on the products, packaging and any communication materials.

The reports are accompanied, as the case may be, by deviation sheets, including a request for a corrective action proposal by the holder within a prescribed time span.

The follow-up conditions (for audits and tests) depend upon the following:

- whether or not the holder holds the ISO 9001 certification, in compliance with Part 2 of this certification reference system;
- decisions made following previous controls (audits and tests);
- any applicable reductions.

Before initiating the follow-up process, CSTB completes an administrative and technical review of the certification dossier to make sure no modifications affecting certification need to be taken into account.

2.2 Evaluation review and decision

CSTB assesses the test and audit reports that are prepared and sent to the holder (evaluation review).

In certain cases, a complementary inspection operation may be requested by CSTB, based on its analysis of the reports.

For each deviation, the holder shall present the actions implemented or envisaged with a relevant time span for bringing them into application with regard to the deviation observed. The persons responsible for the actions to be implemented shall be mentioned too.

CSTB analyses the pertinence of the reply and can request the implementation of a complementary check.

CSTB may anonymously submit to the Specific Committee, for approval, a summary of all the assessment results and the assessment conclusions.

Depending on the results of all the checks, CSTB comes to a conclusion about the assessment and notifies the holder of the conclusion, which may be:

- decision to renew the certificate; or
- decision to sanction in accordance with the General Rules of the NF mark.

In the event of a sanction, this will be operative dating from its notification. The choice of sanction depends on the severity of the observed deviation. The sanction notifications that affect the usage right are signed by CSTB Management.

The cost of additional verifications due to the sanctions or after analysis of reports is to be borne by the holder.

The holders and their distributors that benefit from usage right maintenance are each responsible for the right to use the NF mark, relative to the product considered, and commit themselves to apply the measures resulting from the sanctions, decided upon in conformity with the certification reference system.

Any suspension or any withdrawal of the right to use the NF mark entails the prohibition to use the NF mark and to make reference to it. This obligation is valid not only for the holder but also for the wholesales network of their company, as well as for the dealers called upon to distribute the company's products.

All the documentation (technical and sales documents, labels, notices, advertising, websites, etc.) shall no longer mention the NF mark for the product subjected to a suspension or a withdrawal (erratum and/or reprinting).

Holders can contest the decision taken by submitting a request in conformity with the General Rules of the NF mark. They are entitled to present their case formally.

Part 3

Certification Files

The application for the right to use the mark must be drawn up by the applicant/holder in one copy in accordance with the examples and templates set out below. **One original of this request shall be made on the applicant's letterhead paper in French** and the entire application shall be sent to CSTB.

In the event that the product comes from a manufacturing unit located outside the European Economic Area, the applicant designates a representative within the European Economic Area who co-signs the application.

An application concerning a product which benefits from a foreign conformity mark or from a test certificate issued by a foreign laboratory is processed, taking into account any existing recognition agreements, in conformity with the General Rules of the NF mark.

Note: Electronic versions of template letters and sheets may be obtained from CSTB.

3.1 Case of an initial admission application

Applicants prepare a dossier to include:

- an application and commitment letter from the applicant in accordance with standard letter 1;
- a general information sheet about the applicant, as per standard sheet 3;
- a data sheet per product according to standard sheet 4.

3.2 Case of a complementary admission application

Holders prepare a dossier to include:

- an application and commitment letter from the holder in accordance with standard letter 1.
- a general information sheet about the applicant, as per standard sheet 3;
- a data sheet per product according to standard sheet 4.

3.3 Case of an extension application

Holders prepare a dossier to include:

- an application and commitment letter from the holder in accordance with standard letter 2A;
- a data sheet per product according to standard sheet 4.

3.4 Case of a maintenance application

Holders prepare a dossier to include:

- an application and commitment letter from the holder in accordance with standard letter 2B;
- a distributor's commitment sheet (signed) on their Company's letterhead paper, in accordance with standard letter 2B (cont'd).

3.5 Case of a new admission application subsequent to withdrawal of the right to use the NF mark

Holders prepare a dossier to include:

- an application and commitment letter from the applicant in accordance with standard letter 1;
- a general information sheet about the applicant, as per standard sheet 3;
- a data sheet per product as per standard sheet 4;
- specific items all applicants must submit as part of a new admission application where the usage right has been withdrawn as a result of a sanction, in accordance with standard sheet 5.

Subject: **Application to maintain the right to use the NF mark – Gypsum plasterboard**

Dear Sir,

I would like to apply to maintain the right to use the NF mark on products that are no different from those already covered by the mark other than by their trademarks and/or their specific trade references affixed thereto and, where applicable, by design changes that do not alter their certified features in any way whatsoever.

Identification of the products admitted to the NF mark		Trademark and/or specific trade reference requested by the distributor
Certificate no.	Name and reference of the holder's product	

The company that will distribute these products (distributor) under the trademark <new trademark requested> has the following contact information:

Name:

Address:

I commit to providing the above-mentioned distributor with the certification reference system for the NF mark – Gypsum plasterboard and, in particular, with the marking provisions laid down in § 2.6 of this same certification reference system.

I commit myself to immediately inform CSTB of any changes made to the distribution of those products and, in particular, in the event of any supply discontinuation by the above-mentioned distributor.

For that purpose, I declare that I am familiar with and accept the General Rules of the NF mark and the certification reference system of the NF mark – Gypsum plasterboard and I commit to conforming to them and to informing my commercial network throughout the duration of usage of the NF mark and, in particular, to complying with the decisions made, with no restrictions or reservations, in accordance with the General Rules of the NF mark and with the certification reference system of the NF mark – Gypsum plasterboard.

I authorise CSTB to inform the above-mentioned distributor of any penalties imposed in accordance with the certification reference system of the NF mark – Gypsum plasterboard, pertaining to the certified products hereby covered.

Please find attached a copy of the commitment sheet signed by the distributor, <name of Company>, to distribute under the trademark and/or the specific trade reference only those certified products that I have delivered to them.

Yours faithfully,

4.2 Paying for the services

4.2.1 INITIAL APPLICATION / EXTENSION APPLICATION

Together with its certification application (initial or extension application), the Applicant makes an advance payment equivalent to 50% of the fees relative to the services of management, testing, and auditing.

These services are invoiced at the stage of Admission (usage right agreement). It is a single flat amount.

If they are not included in the “audit” service, the travel expenses are to be invoiced after the performance of each audit.

These fees remain payable even if the right to use the NF mark is not awarded, extended or if the application is abandoned during the examination.

Whenever the NF mark is granted during the year, the amount of the usage fee is calculated pro rata of the number of months following the decision to grant the right of use.

4.2.2 SURVEILLANCE

The fees for the annual services pertaining to management, audit, testing and right to use the NF mark will be invoiced during the first quarter of each year and remain payable if the right to use the NF mark is not renewed, is cancelled or is suspended during the year.

If they are not included in the “audit” service, the travel expenses are to be invoiced after the performance of each audit.

4.2.3 NON-PAYMENT OF AMOUNTS DUE

The applicant or holder of the right to use the NF mark must pay all their fees in accordance with the stipulated terms of payment. Any failure on their part constitutes an obstacle to the performance by CSTB of the responsibilities of verification and corrective action that are incumbent upon it under this certification reference system.

In case an initial notification by registered letter, with acknowledgement of receipt, should not result, within one month, in the payment of all the sums due, all sanctions provided for in the General Rules of the NF mark may be applied for all the products accepted for that holder.

4.3 Cancellation by the applicant/holder of an audit or a test

As regards any audit cancelled by the applicant/holder less than 30 days prior to the date of the audit, CSTB may charge a lump sum by way of damages:

- 25% of the audit invoice if cancelled 1 month prior to the audit;
- 50% of the audit invoice if cancelled from 1 month to 15 days prior to the audit;
- 75% of the audit invoice if cancelled less than 15 days prior to the audit.

If the CSTB travel and accommodation expenses are not subject to a fixed rate, they will also be invoiced if those expenses cannot be fully refunded.

Applicants/holders do not have to pay this lump sum provided that they can demonstrate that the cancellation directly results from a case of *force majeure* as specified under French Law.

4.4 Prices

Prices are reviewed annually, in the form of a price list drawn up by CSTB. This revision is decided on after consultation with the Specific Committee.

If holders refuse to recognise the annual price review, they will be deemed to have voluntarily terminated the certification contract and the right to use the NF mark for their certified products.
